ASC27

Company
Profile

We Build
KNOWLEDGE

Among the best Italian software companies developing artificial intelligence.

We don't rent it, we do AI for our customers.

ASC27

Introducing
ASC27

Employees are the heart and soul of any company. We're a **team of passionate people with more than 300 years of combined experience.** With 20 years of experience in cybersecurity, we use our mindset for **Artificial Intelligence.**

ASC27 is a start-up which has continuously grown: the **average quarterly growth rate** is **+10%.** We've offices in **Rome, Bologna, Chieti** and **Milan**. With our international spirit, we're already working in **South America** and plan to expand our presence in the rest of **Europe** and the **Middle East.**

ASC27 has won numerous national and international **awards** and collaborates with many other companies locally and globally. We also actively work with Universities and Research Centers globally to stay on the edge of AI, bringing back this **value** to our customers.

ASC27 CEO'S
STATEMENT

The ASC27 motto is "**We build knowledge**." *We bridge the gap between Humans and Machines and let them learn from each other.*

Our mission at ASC27 is to **use all our skills to create knowledge for our customers**.

NICOLA GRANDIS

CHIEF EXECUTIVE OFFICER of

" When we talk about **AI**, the question isn't "if" but "how and when" "

He started his career working with large multinational corporations in the Cyber Security field. In 2001 he started his business with the company "Total Wire."

He worked for twenty years on software and hardware development. His extensive experience brought him to meet a new challenge in 2020, right in the middle of the Covid-19 world pandemic situation.

With a strong background in IT consultancy, he launched the start-up ASC27, achieving concrete results in the Cyber Security and Artificial Intelligence field, cooperating worldwide with large enterprises and governments. Actually Nicola is proudly the CEO of **ASC27** and **AIDA46**, our cyber sister company.

OUR STORY

ASC27 s.r.l. is an innovative Italian startup based in Rome.

Founded during the first lockdown due to the **2020** pandemic, it has a wide product portfolio and our cognitive building blocks range from **Text**, **Video**, **Audio**, **Empath**, **Situational AI** and more.

Originally founded to deal with **Artificial Intelligence** and Cybersecurity, in **2022** ASC27 spun off its **Cyber** side into **AIDA46**, the result of a joint venture with **Digital Platforms spa group**.

Due to steady growth, the company reached the quota of **40 employees in 2022**, including R&D, Sales, Business Developers, Marketing and External Collaborators.

OUR DISTINCTION

We don't rent AI; we make AI for our customers.

At the current time, often AI it's a mere marketing buzzword fo numerous companies. ASC27 is leading the AI development, unleash and unlock the AI capabilities of the most advanced research, creating value for its selected customers.

From Embedded systems to the Cloud and beyond.

Coming from the CyberSec, being an italian and an EU compan we know very well how valuable are the data of our customers They are in good hands.

ASC27

PORTFOLIO

MAXIMISE EFFICIENCY WITH COMPUTER VISION SOLUTIONS.

LOGISTICS & WAREHOUSING
Improve logistics processes and warehousing efficiency.

ENTERTAINMENT
Get all the advantages of computer vision solutions in your hotel/amusement park/museum.

PROPERTIES
Protect your properties with the help of AI

SMART CITY
Make your city smarter than ever with the help of computer vision and AI.

RETAIL
Get customer behavior insights, improve retail efficiency and increase your profit
SMART ROADS
Increase road safety and unlock all possibilities for efficient operation.

SECURITY & SAFETY
Ensure security and safety on the highest level

DRONES
Combine AI with flying drones and get the best solutions possible

vision.

SIMULATION AND TRAINING
The true-to-the-original replicas can participate in simulations and you can train them how to react.

INVESTIGATION
Investigate the reasons of diverse events in order to avoid the repetition.

...and **more**

digitaltwin

INDOOR NAVIGATION
Navigate in the digital twin replica just like you were there.

TIMELAPSE
Use the timelapse mode to navigate back to the oast, check the presence and get prediction of the future.
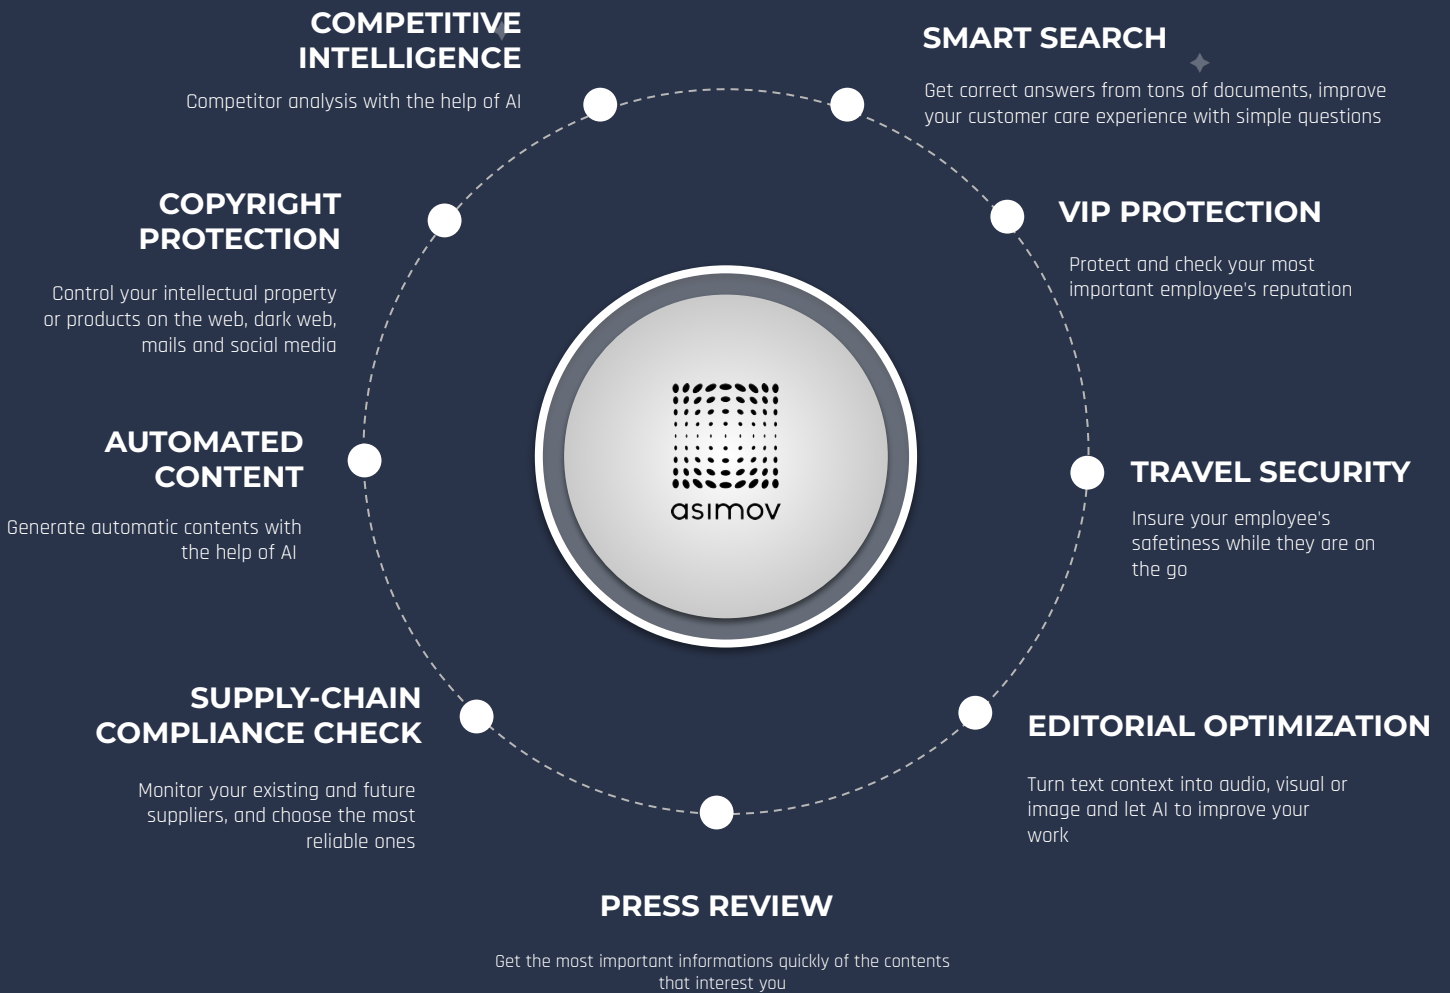

——

PORTFOLIO

AI THAT READS,WRITES, CREATES, LEARNS AND RESPONDS. THAT'S ASIMOV.

COMPETITIVE INTELLIGENCE

Competitor analysis with the help of AI
